Enclosures:

Ref. No. 15144-2A/44 dated 8th April 1944.

Sir,

Subject: Medical institutions - Lady Goschen Hospital, Mangalore - Morgan Ward - Conversion into a 'C' class ward.

In the Lady Goschen Hospital, Mangalore, it is seen that a small ward with four single rooms called the 'Morgan Ward' is being treated as part and parcel of the General Wards, the paying patients and, at times, even non-paying patients being accommodated in these rooms to the extent possible. These rooms measure 12' x 12' with two bathrooms adjoining. Being a small and separate ward with single rooms and separate bathrooms, this ward can appropriately be classified as a 'C' class ward, in view of the fact that 'C' class wards in general have not the special amenities that exist in the special wards, but have greater privacy than obtainable in the General Wards.

P.T.O.

It is, therefore, recommended that the Government may be pleased to classify the Morgan Ward with four beds into a 'C' class ward as an experimental measure for a period of one year. The rate of hospital stoppages to be recovered from patients admitted into this ward will be the same as those applicable to 'C' class wards in other hospitals in the plains.

The question of continuing the arrangement further or making it permanent may be considered after a year, by which time, experience will have been gained as to the extent to which the public have availed themselves of the arrangement.
